

SHREYA PAREKH

West New York, NJ 07093 | 516-779-9322 | shreyaparekh685@gmail.com | [LinkedIn](#)

Professional Summary

Experienced Software Developer with 2+ years in full-cycle development of enterprise web and client-server applications. Proficient in front-end technologies including HTML, CSS, JavaScript (ES6+), TypeScript, Angular, React, Bootstrap, and Sass, with backend experience in Node.js, Java, and CMS platforms like Shopify and WordPress. Solid foundation in structured programming (C, C++, C#, Python) and strong skills in responsive UI/UX, REST API integration, and scalable code architecture. Adept at working in Agile teams, managing production environments, and communicating technical solutions effectively.

Skills

- **Programming Languages:** Java, C++, C#, Python (certified), JavaScript, TypeScript, HTML5, CSS3.
- **Front-End:** HTML, CSS, JavaScript, ES6, TypeScript, Angular, React, Bootstrap, Material, Less, Sass.
- **Operating Systems:** Linux (Ubuntu, Fedora), Windows
- **Algorithms & Data Structures:** Implemented in academic and personal projects.
- **Frameworks/Libraries:** Proficient in Angular (9/11/12/13+), ReactJS, Vue.js, Bootstrap, Material.
- **TypeScript:** Advanced skills in TypeScript for writing robust and maintainable code.
- **CSS Preprocessing:** Experience with LESS, SASS for styling and theming.
- **UI/UX Design:** Skilled in designing and implementing user interfaces, form validation, animations, responsive design, and Cross-Browser Compatibility.
- **APIs:** Integration and consumption of RESTful services and legacy network services.
- **Version Control:** Proficient in Git, SVN for version control and collaboration.
- **Prototyping & Design Tools:** Designed and developed interactive prototypes using Figma and Adobe XD.
- **CMS & E-Commerce:** Shopify, WordPress.
- **CI/CD:** Familiar with Jenkins for continuous integration and deployment.
- **Code Quality:** Experience with ESLint/TSLint for code quality and standards.
- **Agile Methodology:** Worked in agile teams for iterative development and delivery.
- **Production Support:** Active in providing production support, handling releases, and enhancements.
- **Communication:** Effective in coordinating with business teams and stakeholders for requirement analysis and delivery.
- **Problem Solving:** Strong analytical skills with a focus on effective problem resolution.
- **Team Collaboration:** Proven ability to work collaboratively in a team environment.
- **Time Management:** Adept at managing multiple tasks and meeting deadlines.
- **Testing Tools:** Experience with Jasmine, Karma, Protractor for functional and unit testing.
- **API Testing:** Postman, Swagger.
- **Project Management:** Jira.
- **Build Tools:** Experienced with Webpack, Babel, Gulp, Grunt for project build and optimization.

Work Experience

Professional Development & Independent Learning

May 2023 to Current

Self-Initiated

- Completed multiple hands-on projects and online coursework to enhance skills in structured programming using Python, Java, and C++.
- Focused on implementing algorithms and data structures through platforms like LeetCode and HackerRank.
- Gained experience with Linux-based development environments (Ubuntu), focusing on terminal commands, process handling, and networking fundamentals (HTTP, TCP/IP, DNS).
- Designed an interactive Figma prototype for a fast-food delivery app, focusing on user flows, wireframes, and responsive UI/UX best practices.
- Practiced multi-tasking by managing a personal development roadmap while contributing to open-source issues and refining soft skills including communication, time management, and adaptability.
- Continued exploring system design concepts and cross-functional collaboration techniques through mock interviews and online coding sessions.

Software Developer, Front-End Development

Sep 2021 to Apr 2023

Lemon Technologies

- Company Overview: Here, I worked as a developer in an agile team that develops and maintains retail life cycle management software for Diamond/Gems. It is a web-based software that has global client/user base, Offering features such as inventory tracking and management, Sales order management, Sales analysis & optimization tools, Client on-boarding, etc.
- Requirement & technical analysis, defining deliverables.
- Designing UI, coding UI modules and components, injecting APIs/Services, Integrating & testing end- to- end product.
- Communication with Business and different teams, handling Business requests / enhancements.
- Active Production Support, next generation app's development & testing.
- Effort estimation for upcoming Developments / Enhancements and testing.
- Performing Production Implementations / Releases.
- Involved in developing admin application (React based) and Marketing application (Angular based).
- Used for software development Angular14+, creating custom components, directives, decorators, and services to interface with both restful and legacy network services.
- Used Angular and implemented with animations, routing, and states.
- Good experience with Form Validation by using Angular reactive forms.
- Extensive experience with the latest Es6+ and typescript features.
- Solid experience in using React lifecycle methods and developing react components stateful and stateless, higher order components.
- Used ReactJS with Redux to separate the data and presentation layer. Utilized Redux stores to handle the states and update the UI.
- Designed dynamic and browser compatible pages using HTML5, CSS3, jQuery.js and Vue.js and Laravel.
- Developed code to call the web service/APIs to fetch the data and populate on the UI using jQuery/AJAX and Vue.js/AJAX.
- Used web pack to minify, uglify and build the project, and integrated with CI/CD Jenkins pipeline.
- Developed fully responsive web application using bootstrap, material frameworks and writing media queries.
- Setup Jasmine for UNIT and Functional Testing of JavaScript.
- Extensive experience in writing unit tests using jasmine, karma, and enzyme.
- Experience with common front-end development tools such as Babel, Gulp, Grunt, Web pack, NPM, etc.
- Extensive experience in creating style guides, best practices and setting UI standards for enterprise/consumer applications.
- Performing KTs.

- Here, I worked as a developer in an agile team that develops and maintains retail life cycle management software for Diamond/Gems. It is a web-based software that has global client/user base, Offering features such as inventory tracking and management, Sales order management, Sales analysis & optimization tools, Client on-boarding, etc.
- Tech Stack: Angular 9/11+, JavaScript, TypeScript, Karma, Protector test engine, Ext.js, Node.js, ESLint/TSLint, HTML5, CSS3, Bootstrap, Angular CLI, RxJS, JSP, XHTML, DHTML, XML, Jasmine, Ajax, jQuery, Oracle, Node Package Manager, Swagger, Postman, Jenkins, SVN, Git, Jira, etc.

Web Developer, Front-End Development

Mar 2021 to Aug 2021

Cirkel Studio

- Develop and maintain shopify websites.
- Assisted in implementing new features.
- Work closely with the design team to ensure website aesthetics.
- Conducted website testing and resolved bugs.
- Coded websites using HTML, CSS, JavaScript, jQuery, Ajax, and Shopify liquid languages.

Education

Bachelor of Engineering, Computer Science Engineering

Aug 2021

Gujarat Technological University – Ahmedabad, India

Diploma in Computer Engineering

May 2018

Gujarat Technological University – Ahmedabad, India

Certifications

- Figma for UX Design, LinkedIn Learning, 07/24, Gained expertise in using Figma for creating user-centric designs, including wireframes, prototypes, and design systems.
- Building a Reactive App with Angular and Spring Boot 2, LinkedIn Learning, 07/24, Learned to build responsive and scalable web applications using Angular for the frontend and Spring Boot 2 for the backend, incorporating reactive programming principles.
- Data Science Architecture, iNeuron, 05/20
- Python for Data Science, iNeuron, 05/20
- Create Your First Python Program, Coursera, 06/20
- Getting Started with AWS Machine Learning, Coursera, 05/20

Accomplishments

- Recognized as an employee of the year for two consecutive years at previous employment.
- Gold medalist in bachelor's degree.
- Best student award in High School.
- Recognized & awarded for sport: Badminton.
